Description

- Promotes a healthy immune system*
- Features antioxidant-rich ingredients*
- Vegan-friendly formula

Immune system support should be a year-round habit in preparation for when you really need protection from various pathogens and inflammation that can wreak havoc on your body.

Energize your wellness strategy with four immune-boosting nutrients in one formula.

Quercetin: A flavonoid with antioxidant properties that fight free radical damage linked to chronic diseases and reduced immune function.* Quercetin also has anti-inflammatory properties.* Persistent inflammation is an underlying cause of some diseases. Quercetin helps to interrupt inflammation pathways to keep inflammation levels in check.* Quercetin also helps to transport zinc across cell membranes, thereby increasing zinc activity.*

Vitamin C: An antioxidant vitamin that protects cells from oxidative stress.* Vitamin C may also assist in the production of white blood cells that help the body fight infection.* Additionally, vitamin C enhances quercetin levels in the blood.*

Zinc: A mineral that is essential for the development and function of immune cells.* Zinc may help to boost immune response by increasing the activity of T-cells and natural killer cells.* Zinc is also a well-known antioxidant.*

Bromelain: The bromelain enzyme is often paired with quercetin to enhance absorption.* Bromelain also has anti-inflammatory properties that support overall wellness.*

Description

- Promotes sinus and lung health*
- Anti-inflammatory properties*
- Vegan-friendly formula

Allergens and pathogens that enter the airways can trigger inflammation that interferes with clear breathing.

When breathing becomes troubled by seasonal changes or germs, reach for a botanical formula that supports clear sinuses and lungs.*

Quercetin: Quercetin is a flavonoid with antioxidant and anti-inflammatory properties.* It promotes a healthy immune system response to foreign bodies that irritate airways.*

Bromelain: The bromelain enzyme is often paired with quercetin to enhance absorption. Bromelain in its own right promotes a healthy inflammatory response.*

Oregano: Contains active compounds such as carvacrol and thymol that have natural antibiotic and antioxidant properties that support the immune system* Carvacrol especially has anti-inflammatory qualities.*

Thyme: Contains some of the same phenols as oregano, carvacrol and thymol, which help to alleviate coughing.*

Eucalyptus: Contains antioxidant-rich flavonoids and compounds that help to clear out mucus and reduce inflammation.*

Mullein: Contains active compounds with anti-inflammatory properties and helps to break up congestion in the airways.*

English Ivy: Rich in plant compounds that have antioxidant and anti-inflammatory properties.* Benefits also include clearing the airways of mucus and alleviating coughs associated with respiratory trouble.*

Description

- Supports joint health*
- Promotes joint flexibility*
- Nutrients to manage inflammation levels*
- Features shellfish-free glucosamine

Wear and tear of the joints is a natural part of life. The health of cartilage, the connective tissue that cushions the joints, plays a crucial role in joint mobility and comfort.

When shoulders, knees or hips become stiff and achy, reach for specially combined compounds that fortify cartilage structure and reduce the symptoms of inflammatory joint conditions.*

Glucosamine & Chondroitin: Compounds found naturally in cartilage. Both help to maintain cartilage structure.* Regular supplementation of glucosamine and chondroitin may help to slow cartilage deterioration and reduce joint pain.*

Boswellia: A botanical that has anti-inflammatory and pain-relief properties that may help to ease joint swelling.*

Turmeric: Contains the active compound called curcumin that has anti-inflammatory properties.* May help to reduce joint pain and stiffness.*

MSM: Provides sulfur, which helps to maintain the structure and strength of connective tissues at the joint sites*. Aids the recovery of joint and soft tissue damage.*

L-Methionine: A sulfur-containing amino acid that helps to maintain cartilage health.* As part of the SAME cycle, L-methionine helps to reduce inflammation and promotes cartilage repair.*

Bromelain: An enzyme that demonstrates anti-inflammatory and pain relief qualities.*

Quercetin: A flavonoid with anti-inflammatory and antioxidant properties.*
